

**New York State Energy Research and
Development Authority
2004-2005 Program Summary**

National HVAC ENERGY STAR® Partners Meeting

Wednesday, October 6, 2004

HVAC

**Building bridges
between industries
and**

Building Science

**What
programs
are
available
that
impact
HVAC
systems?**

Residential

HVAC-TECA (Training, Education, Certification, Awareness)

Home Performance with ENERGY STAR®

New York ENERGY STAR® Labeled Homes

Low Income Programs (HVAC Repair & Replacement)

Commercial

Smart Equipment Choices (Equipment Incentives)

Demand Controlled Ventilation (Training & Equip. Incentives)

Advanced HVAC Diagnostics (Training & Equip. Incentives)

Research & Development

Various cross-sector opportunities for developing new technologies (Check PON's on www.nyserda.org)

**Our focus
today will
be on the new
HVAC-TECA
program**

GOALS OF THE PROGRAM

- **Develop partnerships within the HVAC industry and between it and the building science industry**
- **Develop a statewide network of professionally trained contractors certified by NATE & BPI**
- **Ensure proper use, installation & service of HVAC equipment as part of a whole house system**
- **Promote sales of ENERGY STAR[®] labeled HVAC equipment along with proper system installation and an understanding of the value and benefits**

**Who is
eligible for
HVAC-TECA?**

- **Manufacturers**
- **Distributors**
- **Wholesalers**
- **Trade Associations**
- **Training Organizations**
- **Technicians and their Sponsors who are:**
 - **Non-certified seeking initial certification**
 - **NATE certified seeking continuing education units (CEU) for recertification**
 - **BPI candidates or BPI certified seeking HVAC training & NATE certification**

What are the benefits of participating?

***The Program is available on a first come-first served basis subject to Program requirements, funding availability, pre-approval and incentive caps**

- **Cooperative training fund for conducting NATE Recognized training (up to \$10,000 per wave)***
- **NATE specialty exam incentives of \$65 per exam available to technicians (up to five exams)***
- **In person staff support and New York Energy SmartSM Program Training at each event**
- **Marketing Assistance**
- **Flexible training and exam scheduling (multiple events can be scheduled in advance)**
- **Partner recognition & event listing on www.GetEnergySmart.org**
- **Increased exposure to the value provided by active participation in trade, training, certification & accreditation organizations**
- **Increased interest in using ENERGY STAR products**
- **Increased numbers of trained & certified HVAC technicians and quality focused contractors**
